

**MAKING PROGRESS** — Work is progressing on a 400,000 square foot retail development that will contain the community's first Target and Marshall's retail stores. The project is visible from the Broken Arrow Expressway just east of the Lynn Lane exit.

## **Construction remains on target**

September 27, 2008

A 400,000-square-foot addition to Broken Arrow's retail community is six months away.

Construction crews are taking full advantage of beautiful autumn weather to make progress on a major retail complex between Lynn Lane and The Park at Adams Creek retail development that will contain Target and Marshall's retail stores.

Signage on the site indicates the outlets are scheduled to open March 8.

The project is not the only one under way in the area bordering the Broken Arrow Expressway. To the west, land is now being cleared for a new Hideaway Pizza that will front on Lynn Lane and initial work has begun on a new movie theater on the west side of the Adams Creek area which contains Lowe's and several restaurants.

Farther to the west, construction activities are in full swing on the new St. John Hospital complex that will also contain retail and commercial development.
